International Symposium on Measurement of Toxic and Related Air Pollutants

Research Triangle Park, North Carolina
September 1 - 3, 1998

The thirteenth annual International Symposium on the "Measurement of Toxic and Related Air Pollutants" co-sponsored by the U. S. Environmental Protection Agency's **National Exposure Research Laboratory** and the **Air and Waste Management Association** will be held at the Embassy Suites, Cary NC. A special session presentation by the STAR Award Grantees will be featured.

Research papers for oral and poster presentation on the following themes are invited:

Measurement of toxic air pollutants
Indoor air pollutants measurement
Source sampling methodology and results
Remote air sensing methods, laboratory and field results
Superfund site and hazardous waste air monitoring
Automotive air emission measurements
Ambient air measurement of volatile, polar, and semi-volatile organic compounds
Global climate change chemical measurements
General air topics
Commercial instrument development
Chemodynamics and compartmental modeling
Modeling studies

Meteorological effects on air pollution
Aerosols and visibility
Measurement of acidic aerosols
Passive personal monitors for air pollutants
Quality assurance for air pollution monitoring
Chemistry, fate, transport, and modeling of toxic air pollutants
Measurement of persistent organic air pollutants
Pesticide measurement and exposure
Dispersion of air pollutants
Risk assessment
Air pollution around the world
Endocrine disruptor exposure research
*EPA Star Award Grantees
Particulate Matter

Send abstracts of 200 words by April 1, 1998 to Robert G. Fuerst, USEPA, NERL, 79 T. W. Alexander Drive, MD-46, Research Triangle Park, North Carolina 27711, Phone (919) 541-2220 or to R. K. M.
